Which of the following is not a characteristic of a good research question?

It is specific, clear, and focused.

It is based on a gap in the current knowledge.

It is broad and general, covering a wide range of topics.

It is relevant to the field of study and has practical implications.

Correct Answer: C
A good research question should be specific, clear, and focused, based on a gap in the current knowledge, and relevant to the field of study with practical implications. A broad and general question is not a characteristic of a good research question.
